The Learning Center

Our 13,000 square foot Blended Learning Center, located in Chandler, AZ, incorporates the latest practices and philosophies in blended education. Using highly skilled teachers and state-of-the-art technology, we deliver a rigorous curriculum that is customized to meet the individual needs of each student. The PBLC represents a unique vision in modern learning spaces. These include stimulating environments for one-on-one instruction, small group collaboration, high-tech presentation, instructional and lab facilities, as well as an activities room.

Our Blended Learning Approach

Blended learning is a formal education approach that combines face-to-face classroom teaching methods with computer-based online learning activities. At Primavera's Blended Learning Center we focus on the mastery of Common Core Standards and Science, Technology, Engineering, Math (S.T.E.M.). To accomplish this

Blended Learning
ONLINE • MOBILE • CLASSROOM

students can take their courses online wherever needed, whether onsite or at home, but participate in project-based activities while at the center. The benefit of a "blended" learning model is that students can come to a physical setting to perform practical hands-on labs and projects led by highly qualified instructors.

S.T.E.M. Methodology

The acronym S.T.E.M. stands for Science, Technology, Engineering, and Mathematics. It represents an interdisciplinary approach to learning where academic concepts are coupled with real world problem solving. S.T.E.M. exemplifies one of the best opportunities for young students to take what they have learned academically and then apply it to the world they live in. This method fosters a wonderful environment for critical thinking and practical application.

Primavera’s blended learning center (PBLC) is dedicated to providing a comprehensive and innovative approach to educating children, promoting the ideal of becoming well-rounded and successful lifelong learners by improving the critical thinking and complex problem solving skills that students can use to hone their skills toward college and career readiness.

How To Enroll

The Blended Learning Center is an exclusive educational resource for Primavera’s 6-8th grade Online Middle School students. To attend the PBLC students must first be a registered student of the Online Middle School. Once enrolled, students can contact their Student Advisor to discuss attending on-site classes at the Blended Learning Center. There are no tuition fees or academic prerequisites in order to attend.

Schedule

Students can attend full day, half day, or by appointment Monday through Friday.

| | | |
|-----------------|--------------------|------------|
| Half Day | AM Schedule | 8 am–12 pm |
| | PM Schedule | 1 pm–5 pm |
| Full Day | 8:30am–4:30pm | 8 am–5 pm |

Primavera’s Blended Learning Center is a direct extension of Primavera Online High School and Middle School. It is chartered through Arizona Charter Schools Association and accredited through the NCA.
